

PRODUCT RELEASE

Remanufactured Premium Inkjet Multi-Packs

*Featuring HP®, Canon®, Lexmark®, & Brother®

QUALITY.

Our remanufactured cartridges endure a comprehensive quality control process including documented disassembly, cleaning, filling, component replacement and quality testing. Your cartridge has been specifically designed and engineered to achieve optimum page count and print performance. You can feel confident about this 100% post-tested remanufactured cartridge. We are an STMC factory whose management systems have been ISO certified to ISO 9001, ISO 14001, and OHSAS 18001.

ENVIRONMENT.

Millions of cartridges are discarded into local landfills every year, which is why using remanufactured cartridges is a great way to reduce your reliance on newly manufactured cartridges.

COST SAVINGS.

Our cartridges are remanufactured in the United States of America, and are a cost-effective option to replace your original printer cartridges.

18 MONTH MANUFACTURER WARRANTY.

Every cartridge is 100% guaranteed to be free of defects in workmanship and materials. We warrant, subject to special conditions and under normal use, that our recycled cartridges will not cause damage, deterioration, or abnormal wear in any compatible machine for which the cartridge was originally designed. In the event that our cartridge adversely affects your machine, we will service or repair your machine at our expense.
